Relevant Experience

Innovest Afrika **May 2025 - Aug 2025**
Venture Analyst Texas, USA
Drove investment insights and enhanced portfolio accuracy by automating diligence dashboards, cleansing pipeline data, and presenting impact metrics to stakeholders, demonstrating strong data-driven decision making.

- Orchestrated data-driven deal flow and portfolio tracking using Excel/Power Query and Tableau, eliminating stale entries and reinforcing analytical rigor.
- Developed and maintained Tableau dashboards that improved diligence visibility by 30%, ultimately accelerating Investment Committee decisions.
- Engineered automated post-accelerator metrics with Power Pivot, triggering alerts for underperformance and identifying KPI gaps.
- Liaised with early-stage founders to elicit reporting needs, strengthening investor-readiness processes and honing stakeholder communication skills.

Telstra Global (Malaysia) Sdn. Bhd **Nov 2019 - Sep 2024**
Customer Experience Lead Kuala Lumpur, Malaysia

- Led cross-functional teams in launching new internal tools, driving a 20% improvement in team performance and showcasing robust product management and change management capabilities.
- Facilitated requirement analysis for internal tool development projects, optimizing team efficiency by 20% and emphasizing clear product strategy alignment.
- Analyzed over 50k Medallia records to surface churn drivers, informing the product roadmap and lifting NPS by 15% through data-driven decision making.
- Produced stakeholder-friendly documentation and presentations using Microsoft Office suites, effectively communicating changes and supporting adoption of new systems.
- Authored over 60 SOPs and user-guide library, enabling 90% active adoption of new CRM modules within 30 days and reinforcing cross-functional training.
- Conducted monthly retrospectives to close feedback loops within two sprint cycles, maintaining a 4.5/5 stakeholder satisfaction rating.
- Developed and led training sessions for over 45 staff members to support systems migration and ensure knowledge retention.
- Facilitated cross-functional workshops to align support, engineering, and training teams, mirroring the collaborative approach required for integrated product development.
- Created detailed Visio business process diagrams to clarify roles and streamline responsibilities, supporting effective product lifecycle management.

Telstra Global (Malaysia) Sdn. Bhd **Jun 2019 - Nov 2019**
Network Technical Specialist Kuala Lumpur, Malaysia
Network Technical Specialist. Diagnosed and resolved daily technical incidents to minimize network downtime.

- Resolved high-impact network incidents with a median 1h 42min turnaround, keeping SLA compliance above 99%.
- Documented incident patterns in Excel; presented findings for process fixes
- Coordinated vendors/providers to minimize downtime and sustain satisfaction
- Created SOPs and service documentation (using Word, Excel, PowerPoint) for troubleshooting, reducing repeat errors and improving MTTR

Manpower Business Solutions **Jan 2018 - Apr 2019**
Project Manager Cyberjaya, Malaysia

- Analyzed call-center ServiceNow dashboards, pinpointing queue bottlenecks and improving SLA from 85% to 96%.
- Mentored 70+ associates and updated documentation standardizing resolutions
- Acted as liaison between front-line teams and developers to capture business process pain points
- Translated pain points into JIRA tickets with clear acceptance criteria, accelerating bug-fix cycles by 17%.
- Built ROI cases for knowledge-base revamp, securing executive budget approval

Education
Hult International Business School **Sep 2024 - Aug 2025**
Master of Business Administration, Analytics
Infrastructure University Kuala Lumpur **Nov 2011 - Apr 2015**
Bachelor of Science, Information Technology
